Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 17 and 22 are rejected under 35 U.S.C. 102(b) as being anticipated by Ulubelen et al. {Planta Medica, 66 (2000), pp. 627-629}.

Ulubelen et al. disclose a method for treating hypertension comprising administering ferruginol (compound 1) to rats, which reduced the arterial blood pressure in the said rats (see 3rd paragraph of page 627; Table 1 and right column of page 628).

Allowable Subject Matter

Claims 18-20 and 23 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims. The prior art of record does not

teach or suggest using the compounds, as defined by claims 18-20 and 23, to treat the recited diseases.
